## Safety Up Front

No job is worth doing unless it is done safely. Our ethic of giving SAFETY, ENVIRONMENTAL COMPLIANCE, and RISK AVOIDANCE the highest priorities will be our guide to ensure we constantly do what is right. A&D's customers demand nothing less than a safe project. A&D has successfully passed the rigorous vetting processes that our customers require, including PICS, ISNetwork, BROWZ, PEC, the MASC training consortium, and the MICCS Program. Our field personnel are 40 hour trained and many have been through the Loss Prevention System (LPS) training. We have personnel that maintain TWIC cards to work in facilities or vessels covered by the MTSA. Please contact our Corporate Health and Safety Officer, Paul Butsavage at 803-957-9175 for more information on A&D's safety program or to discuss how we can provide safety training to your employees.

## A & D Environmental Plunges into the Oil & Gas Field

A&D Environmental's addition of a business development professional in Colorado has enabled the company to gain inroads into the Oil and Gas production field in the Mountain States. The company has a field office in Windsor, CO and a sales office near Denver. Please contact Dave Rowland at 301-517-9682 or [drowland@adenviro.com](mailto:drowland@adenviro.com).

## A & D Environmental Expands its Industrial Service Division...and Customers LOVE It!!

A&D Environmental has historically offered heavy industrial cleaning services (high and ultra-high pressure water blasting, vac truck service, tank cleaning, and more) from all of its locations. Recently, the company has taken actions to expand those services (such as the purchase of a new 40K hydroblaster) particularly in South Carolina and Georgia. Read what one new customer in Macon, GA had to say..."We have been impressed with the quality of their personnel and equipment as well as their willingness to be flexible. We've found them to be safety conscious, efficient, and focused on customer service." Our customers are telling us that our personnel are able to perform jobs so efficiently, that they are saving money versus what they were accustomed to spending with other vendors.

## Employment Opportunity

Do you have experience in selling industrial and environmental services to manufacturing plants and utilities in North Carolina? If so, we may have an opportunity for you. Please contact Dan Martin or Tom Neill via e-mail at [dmartin@adenviro.com](mailto:dmartin@adenviro.com) or [tneill@adenviro.com](mailto:tneill@adenviro.com). Please include a resume.

## A & D Environmental Strengthens its Industrial Service Team in South Carolina

A&D Environmental is committed to strengthening and expanding its industrial service program in the South Carolina market. Toward that goal, we recently hired Ed Pankey, an industrial service expert with seven years of experience in South Carolina. In addition to his field experience, Ed serves as an Air Force reservist where he is currently the Mission Support Group Superintendent. He and his family reside in the Low Country. Ed will be filling the roll of industrial service project manager as well as using his people skills to pursue business development in South Carolina. Ed may be contacted at [epankey@adenviro.com](mailto:epankey@adenviro.com) or 803-605-3820.

## Focus on the Employee

Mitch Atkinson has been a driver with A&D Environmental Services for almost nine years, and has been driving commercial vehicles for 34 years. Mitch has logged well over seven million miles on city and highway roads throughout America.

In Mitch's 34 years of driving, he has never had an "At Fault Accident", and has lead the way in setting an example as a safe, professional driver, totally committed to customer satisfaction.

Recently Mitch was awarded the "Driver of The Month Award for the Carolinas" by Ryder Truck Leasing. Over 600 drivers from other companies competed for this award. Mitch's packet has also been recommended to move forward for the "Driver of The Year Award" for 2013 and if selected Mitch and his family will be flown to Miami for a week of fun, shopping and a cruise to the Bahamas.

Mitch is highly regarded as an A&D employee and respected by his peers. He and his family reside in South Carolina.

## A & D Environmental... NO Boundries!

A&D Environmental's customers trust us with their business in the Southeast and the Colorado area. Did you know that they many times our customers ask us to perform work at locations outside of our normal footprint? In the last two months alone, we have performed work in Ohio, Tennessee, Arkansas, Nebraska, and Wyoming. We'll go where our customers take us! Simply call 1-800-434-7750 and speak to a sales representative or project manager.

**MAXIMUM Protection. MINIMUM Risk. TOTAL Peace of Mind.**
