Family and Company in Mourning

On January 11, 2011 the company lost one of its own. Mr. Wayne Bishop, Project Manager from our Burlington, NC Facility died suddenly at his home in Alton, VA. Devoted family man, strong in his faith, and dedicated employee, Wayne's presence enriched the lives of those he touched. His untimely death is a great loss for those of us remaining and he is greatly missed. We at A & D Environmental extend heartfelt condolences to Wayne's family.

Obituary for WAYNE BISHOP Jr

Wayne Bishop, Jr., 42, of Alton Va., died suddenly on Tuesday, January 11, 2011.

Mr. Bishop was born on March 9, 1968, in Columbia, South Carolina, the son of Bobby Wayne Bishop, Sr., and Julia "Judy" Bagley Bishop.

On August 10, 1991 he married Meri Beth Lazenby Bishop and was a devoted husband and father. He was a member of The Tabernacle. He was a graduate of University of South Carolina.

In addition to his parents and wife of the residence he is survived by two daughters, Anna Delayne Bishop, and Bethani Kate Bishop, and one son, Tobin James Bishop, all of the residence. He is also survived by a brother, Michael Bishop.

The family request that in lieu of flowers, memorial donations be made to Nehemiah 7 Ministries, care of The Tabernacle In Danville, VA.

A & D Environmental's Chris Lock named as 2011 President

A & D Environmental's Chris Lock named as 2011 President of South Carolina Association of Environmental Professionals (SCAEP). Chris has been a member of SCAEP for five years and most recently served as the 2010 Vice President of the organization. South Carolina Association of Environmental Professionals (SCAEP) is a non-profit organization founded in 1992. It consists of members from a variety of disciplines including, earth sciences, engineering, law, management and other environmental related areas.

A & D Ranked at the Top

A & D Environmental Services recently was ranked as one of the two largest Environmental Firms in the North Carolina Triad area, according to The Business Journal. To grow in today's market, it takes a strong sense of business values and dedication to "doing it right". What does this mean to our customers? Simply put, it's a laser beam focus on Lowering Total Cost, Risk Avoidance, Breadth of Services, On-time Delivery, and Customer Service. Whether you are a current customer or not, for solutions to your industrial and environmental needs contact your local A & D Environmental sales representative or call 1-800-434-7750 to speak with one of our project managers.

Focus on the Employee

Matt Wray

This month we are shining the light on Matt Wray, one of A & D Environmental's CDL/Environmental Technicians based in Burlington, NC. Matt has been with the company for seven years and in the industry since 1992. His experience and reliability make him an integral part of our organization and the company management appreciates his hard work. We also recognize that our employee's families play a crucial role. Matt lives in the Burlington, NC area with his wife Angie and son Dalton.

Innovative Solutions

A & D Environmental is continually looking for innovative solutions for our customers. Last year we added Dry Ice Blasting to our Industrial Service Line for applications where Water Blasting or other conventional technology is undesirable. Recently we were asked by a potential customer if we could prepare the internal surface of several tanks for recoating while eliminating the need to manage the water generated by water blasting. A trial using dry ice removed the old coating with no problem, but for the coating application, the tank surface needed something different. What was the answer? Sponge Blasting! Using ground up sponge mixed with aluminum oxide, A & D Environmental in partnership with the coating company is successfully removing the old coating and leaving the surface perfectly prepared for the new coating. That's what you get when you contact A & D Environmental...Solutions!
