October 2011  
Volume 2, Issue 4

## New Faces at A & D

A&D is pleased to welcome two new sales representatives to the company. Alicia New and Joel Miller joined the company on the same day in August.

### Alicia New

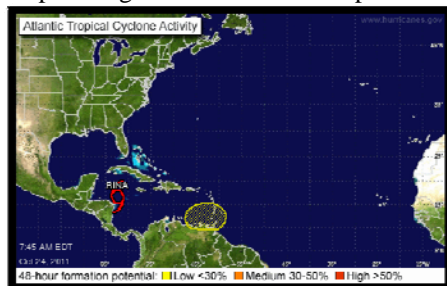

Alicia has six years experience in our industry, having worked for Veolia Environmental and an environmental consulting firm. Alicia will be pursuing prospective business and taking care of existing customers in Southern Georgia and the Florida panhandle for A&D. She may be reached at 229-220-4567 or [anew@adenviro.com](mailto:anew@adenviro.com).

### Joel Miller

Joel has close to ten years industry experience and comes to us most recently from Belfor Environmental. Joel will be pursuing business in the Eastern North Carolina area for A&D and may be reached at 919-210-9339 or [jmiller@adenviro.com](mailto:jmiller@adenviro.com).

## Are you Prepared?

With the Atlantic and Gulf relatively calm, now is a great time to make sure you are prepared for a weather related emergency. A & D stands ready to serve you in the unfortunate event bad weather causes you to have a need. Our phones are manned 24/7 and there are A & D employees "on call", ready to engage the full breadth of our services on short notice. Contact us today if you don't already have an emergency response agreement and rates in place.

## Have Equipment, Will Travel!

A&D wins work in Wyoming! A&D recently bid, won, and commenced a sizable remediation project in Wyoming. A&D Environmental has a Southeastern footprint, but that doesn't mean we limit ourselves to working solely in the Southeast. The company continues to prove that we will go where our customers need us, having done work outside of our footprint in places such as Maine, Massachusetts, Maryland, West Virginia, Kentucky, and now Wyoming.

## A & D Expands Industrial Services into GA

In April of this year, we expanded our service area further into the southeast with the acquisition of the Greenleaf Environmental Group of companies, now known as A&D Environmental Services, (GA), LLC. This acquisition made it possible for A&D to offer industrial services to the Georgia market (and surrounding areas) with locally based equipment. The recent addition of vacuum truck services compliments the core strengths of the A&D service offering from both the Macon and the Atlanta areas. Please contact us at 678-714-8420 or 478-788-8899 to request a quote and arrange for service.

## New Services

A&D Environmental Services has five core service offerings-1) Industrial Services 2) Waste Management 3) Remediation 4) Emergency Response and 5) Transportation. The recent employment of Joel Miller added a new product to our remediation service line. A&D Environmental now offers "Liquid Boot" vapor barrier installation. Please contact your local sales representative for further information.

## Focus on the Employee

**Celeste Rodgers**

In this issue, we proudly turn our attention to Celeste Rodgers. Celeste is the customer service representative for our Georgia customers. Having been with the company since July 2007, Celeste has provided excellent service to customers with the former Greenleaf Group for 4 years and now with A&D Environmental. A valued employee, we expect great things out of her in the future.
